Notice Concerning Revisions to Full-Year Consolidated Financial Results Forecasts and Dividend Forecasts for the Fiscal Year Ending March 31, 2026

Mitsui Kinzoku Co., Ltd. (the "Company") hereby announces that it has revised its full-year financial forecasts announced on August 8, 2025, and its dividend forecasts announced on May 13, 2025, as detailed below.

1. Revisions to consolidated financial results forecasts for the current fiscal year (April 1, 2025 through March 31, 2026) (Units: Millions of yen)

	Net sales	Operating profit	Ordinary profit	Profit attributable to owners of parent	Basic earnings per share
Previously announced forecasts (A)	665,000	46,000	44,000	17,000	297.30 yen sen
Revised forecasts (B)	715,000	78,000	77,000	43,000	751.86
Change (B - A)	50,000	32,000	33,000	26,000	
Change ratio (%)	7.5	69.6	75.0	152.9	
(Reference) Actual results for the previous fiscal year (FY2024)	712,344	74,743	76,410	64,662	1,130.95

(Reasons for revision)

Regarding the full-year forecast for the fiscal year ending March 31, 2026, compared to the forecast previously announced (August 8, 2025), sales, operating income, ordinary income, and net income attributable to owners of the parent are expected to increase due to factors such as solid demand for key products such as ultra-thin copper foil with carrier and electrolytic copper foil for AI servers and an improvement in the impact of precious metal prices in the catalysts division in the Engineered Materials segment, and an improvement in profits in the Metals segment due to rising metal prices and a weaker yen, as well as an improvement in inventory factors resulting from these factors.

2. Revisions of Dividend Forecast

	Annual dividends (Yen)		
	Second quarter-end	Fiscal Year-End	Total
Previous forecast	100.00	95.00	195.00
Revised forecast		110.00	210.00
Dividends in current fiscal year	100.00		
Dividends in previous fiscal year (ended March 31, 2025)	90.00	90.00	180.00

(Note) Breakdown of dividends at the end of the second quarter of the fiscal year ended March 2025:
Ordinary dividend 75.00 yen, commemorative dividend 15.00 yen

(Reasons for revision)

Starting from fiscal year 2025, the company will adopt a progressive dividend policy and aim to pay dividends at a DOE (dividend on equity) of approximately 3.5%. In light of the revision of the full-year earnings forecast in 1. above, it will revise our year-end dividend forecast to 110 yen, an increase of 15 yen per share from 95 yen. As a result, combined with the interim dividend of 100 yen, its annual dividend forecast will be 210 yen per share.

(Note) The above forecasts are calculated based on information available as of the publication date of this document, and actual figures may differ from the forecasts due to various factors going forward.
