# General Meeting of Shareholders' Reference Materials

## Matters to Be Resolved and Reference Items:

### Proposals by the Company: Items 1-4

#### First Item

##### Appropriation of Retained Earnings

We propose that appropriation of retained earnings be performed as follows.

While ensuring that it retains sufficient internal reserves to fund measures for strengthening operations and promoting future business expansion, the Company has a fundamental policy of seeking to distribute dividends in line with its performance.

Specifically, the Company aims to return profit based on a consolidated dividend payout ratio of approximately 20% and to pay dividends at a consolidated dividend on equity ratio (DOE) of approximately 2.5%, focusing on continuous and stable dividend distribution.

In accordance with this fundamental policy, based on the consideration of the Company's financial condition and its performance in the fiscal year under review, the Company proposes that the year-end dividend applicable to the fiscal year under review be ¥70 per share as described below, unchanged from the previous period.

#### Year-End Dividends

(1) Type of Dividend Asset	Money
(2) Allocation and Total Value of Dividend Assets	¥70 per share of common stock Total value of ¥3,997,481,250
(3) Effective Date of Retained Earnings Distribution	June 28, 2019

**Second Item**

Partial amendment of the Articles of Incorporation

1. Reasons for Amendment

The Company proposes to shorten the term of office of Directors from the current two (2) years to one (1) year and amend Article 21 of the current Article of Incorporation. The purpose is to establish a management structure capable of swiftly responding to change in the business environment and to clarify management responsibilities of Directors and further strengthen corporate governance by increasing opportunities to ascertain shareholders’ confidence in Directors, among others.

2. Details of the Amendment

The details of the amendment are as follows. (Underlined portions are amended.)

Current Articles of Incorporation	Proposed Amendments
<p>CHAPTER IV DIRECTORS, BOARD OF DIRECTORS AND EXECUTIVE OFFICERS</p> <p>Article 21. Term of office</p> <p>1. The term of office of Directors shall expire at the close of the ordinary General Meeting of Shareholders relating to the last fiscal year ending within <u>two (2) years</u> after their election.</p> <p>2. <u>In the case of election of Directors constituting less than the whole board, the term of office of such Directors shall be for the unexpired balance of the term of office of the other Directors in office.</u></p>	<p>CHAPTER IV DIRECTORS, BOARD OF DIRECTORS AND EXECUTIVE OFFICERS</p> <p>Article 21. Term of office</p> <p>1. Notes: 1. If the appointment of Ms. Keiko Takagawa is approved, the Company will arrange a contract with her regarding liability as defined by Company Law Article 423-1 to limit total liability to the figure stipulated by Company Law Article 425-1, based on Company Law Article 427-1.

2. If the election of Ms. Keiko Takegawa is approved, the Company will notify the Tokyo Stock Exchange of her appointment as an Independent Auditor of the Company.

## **Proposals by a Shareholder: Items 5-10**

### **Proposals made by a single shareholder (possessing 301 voting rights)**

Fifth, Sixth, Seventh, Eighth, Ninth and Tenth Items concern proposals made by a single shareholder (possessing 301 voting rights).

Details of these proposals and reasons for them have been translated from the Japanese version of the document that is restated verbatim from the notification received by the Company from the shareholder making the proposals, including literal errors, omitted letters and recognition of facts.

### **What is a proposal by a shareholder?**

The Company Law provides shareholders with rights to make proposals provided certain requirements are satisfied.

Regarding these proposals, companies are required to post the proposals, regardless of the content, except in the case of a violation of laws and regulations or the Articles of Incorporation.

On this occasion, the six proposals made by a single shareholder are being posted; however, the Board of Directors is **opposed** to all of these proposals.

You are requested to study the opinions of the Board of Directors of the Company on the following pages and exercise your voting rights.

## Proposals by a Shareholder

### Fifth Item

#### Remove All Directors for Unsatisfactory Financial Results

##### 1. Reasons for Proposal

The Company's net sales have been stable during the last five fiscal years in the range from ¥436.3 billion to ¥522.0 billion. However, ordinary income, which is a more important performance indicator, has fluctuated from a loss of ¥11.2 billion to ¥41.0 billion. Unfortunately, net income for the fiscal year ended March 31, 2019 was unsatisfactory at ¥4.0 billion.

This proves that management is causing repeated, large losses.

The Company needs to tackle the situation in earnest, clarify who is responsible, and earn the trust of shareholders by removing all Directors.

### Opinion of the Board of Directors of the Company

The Board of Directors is opposed to this proposal, for the reasons given as follows.

The Company's Directors were nominated by the Nomination Advisory Committee chaired by an Outside Director as candidates with the capabilities, knowledge, character, and other attributes necessary for carrying out management, and they received the approval at the General Meeting of Shareholders and assumed office. Each Director gathers the information necessary for making the optimum decisions regarding the Company's management and participates in decision-making by the Board of Directors, which conducts sufficient deliberation.

Currently, the Company is implementing the 2019 Mid-term Management Plan with the aim of achieving the Group's Vision in 2024—"The Company that continues to create growth products and businesses and enhance value based on the three core businesses: engineered materials, metals, and automotive parts and components."

Therefore, the Board of Directors is opposed to this proposal to remove all the Directors.

Although this proposal states "ordinary income has fluctuated from a loss of ¥11.2 billion to ¥41.0 billion," the Company's ordinary income was as presented in the table below.

	Millions of yen					
	2013	2014	2015	2016	2017	2018
Ordinary income	13,656	21,096	△11,284	31,047	11,239	17,755

## **Sixth Item**

To buy back 6 million shares (approx. 10.5% of 57,107,111 shares issued and outstanding (excluding treasury stock) as of the end of March 2019) by using a portion of retained earnings

### **1. Reasons for Proposal**

The Company has exceptionally low earnings per share (EPS) and return on equity (ROE) relative to its size based on net sales, operating income, invested capital, etc. As a result, the market does not assess the Company's stock favorably and the Company's share price continues to falter. Most Japanese companies target ROE of 10% or higher and strive to become blue-chip companies with ROE of 15% or higher.

Management should consider investment in growth and shareholder return and establish a capital policy that seeks a high payout ratio. The Company should buy back a certain number of shares as part of measures to strengthen shareholder return and, also in view of the shareholders' equity ratio, to contribute to the improvement of capital efficiency ratios, such as EPS and ROE, and ultimately contribute to the interest of shareholders.

### **2. Funds for Share Buyback**

It is difficult to forecast what the share price will be at the time of the buyback, but the Company should use ¥18.0 billion out of retained earnings (approximately 14.8% of retained earnings) to finance the action. The Company should purchase approximately 6 million shares from the market at a cost not exceeding ¥18.0 billion.

## **Opinion of the Board of Directors of the Company**

The Board of Directors is opposed to this proposal, for the reasons given as follows.

Since ROE and EPS are among the key performance indicators, the Company pays close attention to them. On the other hand, the Company recognizes the need to strengthen its financial position as the Company's shareholders' equity ratio as of March 31, 2019 was 32.5%. Use of retained earnings for share buyback will result in a decrease in shareholders' equity and is contrary to the Company's policy. Moreover, it is necessary to strengthen the management foundation in order to strengthen the financial position and it is indispensable to continue capital investment and R&D investment with a view to future growth.

The Company considers that the Company is now at the stage of working to strengthen the management foundation and improve the financial position so as to enhance corporate value by appropriately implementing the 2019 Mid-term Management Plan.

Therefore, the Board of Directors believes it would be inappropriate for the Company to conduct share buybacks as proposed at present.

## **Seventh Item**

Partial Amendment of the Articles of Incorporation (Inclusion of a provision to prevent leakage of confidential matters concerning the Board of Corporate Auditors)

### **1. Reasons for Proposal**

The Company Law stipulates the following responsibilities of directors: 1) obligations as a director and 2) responsibility as a director with respect to transactions that constitute competition with the company, a conflict of interest, etc. The Company's Articles of Incorporation provides the limitation of liability for the Company's Directors and Corporate Auditors. However, provisions generally lack specificity and are ambiguous from the perspective of individual shareholders.

The Company needs a policy to swiftly and assertively counter any communication regarding environmental issues that may severely impact society. The Company should establish rules for management etc. to prevent the leakage of confidential matters.

The Company needs a policy to swiftly and assertively counter any communication regarding environmental issues that may severely impact society. The Company should establish rules for management etc. to prevent the leakage of confidential matters.

### **2. Details of Proposal**

The Company should establish rules regarding confidential information through "Provisions for Document Management" and "Document Management Manual." "Highly confidential information" means matters whose leakage could negatively impact the safety and interest of the Company and that should only be shared with a limited group of people.

"Confidential information" means matters that are only to be disclosed to certain individuals even within the Company.

"Information confidential to external parties" means matters that could lead to a negative outcome if disclosed to the public.

#### **Security Level**

- 1) Level 1: Boundaries of highly confidential information: Information relating to pollution, joint venture/special projects, undisclosed accounting information
- 2) Level 2: Boundaries of confidential information: Important contracts, new products, cost information, HR files
- 3) Level 3: Boundaries of information confidential to external parties: Meeting minutes, customer lists, sales presentations, quotations
- 4) Level 4: Boundaries of information for disclosure: Internal company newsletters, sales reports Utilizing the above rules, the Company will categorize and indicate the security level of confidential documents and clarify the principle that good work will be rewarded and wrongdoing will be punished for effective management.

## **Opinion of the Board of Directors of the Company**

The Board of Directors is opposed to this proposal, for the reasons given as follows.

The Board of Directors is aware of the importance of information management and as described in the Systems for Ensuring Appropriate Business Operations and Overview of the Status of Operations of Such Systems on Page 36 of the Business Report, the Company has systems in place for storing and safekeeping of information related to the execution of the duties of the Directors.

Regarding information management, there is a need to respond to various digital devices and data formats in a highly advanced information society and the Company thinks that it is necessary to implement appropriate information management in a timely manner. For this purpose, the Company has established "Information Management Rules" and other internal rules and is implementing strict information management in accordance with the materiality of information.

Therefore, the Board of Directors believes it is unnecessary to include the provisions mentioned in this proposal in the Articles of Incorporation.

## **Eighth Item**

Partial Amendment of the Articles of Incorporation (Disclosure of compensation of individual officers)

### 1. Reasons for Proposal

It is proposed to add the following provisions to the Articles of Incorporation.

“The Company shall disclose the amount of compensation paid to each Director and the details thereof in the annual business report and securities report.”

### 2. Details of Proposal

From the standpoint of maximizing shareholder return, disclosure of the amount of compensation paid to each Director and the details thereof is important for enabling shareholders to check whether compensation is appropriate. Disclosure will not inconvenience investors. Rather, it will be easier for investors to assess the cost benefit if compensation for each Director is disclosed. A similar proposal was supported by 48.47% of voters at HOYA Corporation’s 2011 General Meeting of Shareholders.

## **Opinion of the Board of Directors of the Company**

The Board of Directors is opposed to this proposal, for the reasons given as follows.

Compensation, etc. for Directors is determined by the Compensation Committee chaired by an Outside Director and composed mainly of the President, the Director in charge of Human Resources, and the Outside Corporate Auditors as advisors based on the compensation determination standards, within the limit approved at the Annual General Meeting of Shareholders.

Compensation, etc. for Directors consists of base compensation and performance-linked compensation. Base compensation is calculated based on the base compensation for the President and by applying the ratio according to the title, taking into consideration the Company’s performance, the general level in Japan, and other factors comprehensively. Performance-linked compensation is calculated by using consolidated ordinary income as the performance indicator and is determined by the evaluation corresponding to the performance of the business for which the Director is responsible. Outside Directors who are uninvolved in business execution do not receive performance-linked compensation.

Regarding disclosure, the total amount of compensation for Directors and that for Corporate Auditors as well as the number of recipients are disclosed appropriately in the Business Report and Securities Report, in accordance with laws and regulations. Procedures for determination and the method of disclosure are implemented appropriately.

Therefore, the Board of Directors believes it is unnecessary to include the provisions mentioned in this proposal in the Articles of Incorporation.

\*For the total compensation paid to Directors and Corporate Auditors, the compensation determination policy, and the composition, please refer to Pages 33-35.

## **Ninth Item**

Partial Amendment of the Articles of Incorporation (Establishment of a contact point for whistleblowers in the Audit & Supervisory Committee)

### **1. Details of Proposal**

It is proposed to add the following provisions to the Articles of Incorporation.

“The Company shall establish a contact point within the Audit & Supervisory Committee for internal and external whistleblowers for issues concerning the Company’s Directors, Executive Officers, and employees, and also share the implementation process within and outside the Company. Internal Directors, Executive Officers, and any employees who are under the command of internal Directors or Executive Officers shall not interfere with the whistleblowing process and consequent action.”

### **2. Reasons for Proposal**

Although the Board of Corporate Auditors and Outside Directors are established to supervise the execution of internal duties, it is hard to deny collusion among the Board of Corporate Auditors and Outside Directors. Compliance should not be limited to literal legal compliance, but should encompass conformance with social norms/standards and responding to the needs of society.

### **Opinion of the Board of Directors of the Company**

The Board of Directors is opposed to this proposal, for the reasons given as follows.

The Corporate Governance Code (hereinafter referred to as the “CG Code”) specified by the Tokyo Stock Exchange requires establishment of appropriate systems for whistleblowing and supervision of the situation of operation by the Board of Directors. In this regard, the Company has established a whistleblowing system, which is operated appropriately in accordance with the “Regulations for Operation of the Hotline,” the Compliance Guidebook, and other internal rules, and the status of operation is reported to the Board of Directors periodically. Through such measures, the Board of Directors has confirmed that the Company’s whistleblowing system is being operated in an appropriate manner.

Therefore, the Board of Directors believes it is unnecessary to include the provisions mentioned in this proposal in the Articles of Incorporation.

Incidentally, the Company is a company with the Board of Corporate Auditors and does not have the Audit & Supervisory Committee or Executive Officers, which are institutions pursuant to the Company Law, mentioned in this proposal.

## **Tenth Item**

Partial Amendment of the Articles of Incorporation (Separating the roles of Chief Executive Officer and Chairperson of the Board of Directors)

### **1. Details of Proposal**

It is proposed to disallow the same person to concurrently hold the position of CEO and Chairperson of the Board of Directors in principal and require an Outside Director to serve as the Chairperson of the Board of Directors. In the special circumstances that a person holds two roles concurrently, a written explanation describing how the arrangement will maximize the interest of shareholders shall be provided to shareholders in the notice of convocation of a General Meeting of Shareholders or in the reference materials.”

### **2. Reasons for Proposal**

The CEO has authority over internal resources and human resources, among other matters, and should be subject to the most oversight. Thus, and in the interest of promoting corporate governance, the Company should avoid the concurrent appointment of the same person as both CEO and Chairperson of the Board of Directors as much as possible, since it deviates from internationally accepted practices. At present, it appears that executive employees for whom the Representative Executive Officer, etc. have authority over issues including personnel affairs could have a substantially strong influence over the selection of information for decision-making by the Board of Directors and each committee; the Chairperson of the Board of Directors, who operates at arm’s length distance from the CEO, should undertake the task.

## **Opinion of the Board of Directors of the Company**

The Board of Directors is opposed to this proposal, for the reasons given as follows.

The Company continuously examines and verifies whether the Board of Directors is functioning effectively and appropriate corporate governance is ensured in accordance with the Company Law, the CG Code, etc. The Company recognizes that there is a view that a non-executive outside director serving as the chairperson of the Board of Directors is effective for corporate governance to a certain extent. The Company, however, does not consider that such a structure is indispensable for the Company at this time.

At present, for meetings of the Company’s Board of Directors, the meeting agenda is distributed to Directors in advance and each Director examines the content of the meeting agenda, receives explanation in advance and gathers information, as necessary, before attending the meeting of the Board of Directors. Sufficient time is provided for deliberation of the meeting agenda at a meeting of the Board of Directors and the optimum decision is made following thorough discussion. Moreover, two out of six Directors are Outside Directors and, from an independent position without being involved in business execution, they supervise management from the viewpoints of enhancement of corporate value and protection of the interest of shareholders, and they ask appropriate questions and state their opinions in a timely manner at meetings of the Board of Directors. Regarding the evaluation of effectiveness of the Board of Directors specified by the CG Code, the Company believes the role and responsibility of the Board of Directors are sufficiently fulfilled.

Therefore, the Board of Directors believes it is unnecessary to include the provisions mentioned in this proposal in the Articles of Incorporation.

Incidentally, the Company is a company with the Board of Corporate Auditors and does not have the committees or the representative Executive Officer, which are institutions under the Company Law, mentioned in this proposal.

# Business Report

(From April 1, 2018, to March 31, 2019)

## 1. Current State of the Mitsui Kinzoku Group

### (1) Business Operations and Results

#### Economic Overview

During fiscal 2018, the world economy generally remained on a moderate recovery track, led by the U.S. economy, albeit the pace of growth slowed, while there were concerns about the impacts of trade friction owing to the protectionist trade policies of the U.S., the issue of Brexit, etc. The moderate growth of the U.S. economy continued as personal consumption and capital investment remained robust against the backdrop of the brisk labor market and also the positive impact of tax reductions. The Chinese economy showed a trend towards slowdown owing mainly to lackluster personal consumption centering on automotive sales in China and little growth of capital investment. Meanwhile, the Japanese economy stayed on a moderate recovery track, as evidenced by a pick-up in personal consumption, among other factors, in line with the improvement in the labor market and personal incomes against the backdrop of robust corporate earnings.

#### The Mitsui Kinzoku Group's Business Environment

The business environment for Mitsui Mining & Smelting Co., Ltd. and its consolidated subsidiaries (the Mitsui Kinzoku Group) was as follows. With regard to nonferrous metal markets, although prices of zinc, lead, and copper started to decline from the second quarter, they began increasing in 2019. On the other hand, prices of indium remained on a downward trend from the beginning of fiscal 2018. Meanwhile, the foreign exchange market was generally stable.

In the Engineered Materials Business segment, although demand for MicroThin™ and metal powders for electronic materials decreased owing to shrinkage of the smartphone market worldwide, there was steady demand for exhaust detoxifying catalysts.

#### The Group's Initiatives

In these circumstances, fiscal 2018 was the third year of the Group's 2016 Mid-Term Management Plan launched in 2016 with the goal of realizing the Group's Vision in 2024—"The Company that continues to create growth products and businesses and enhance value based on the three core businesses: engineered materials, metals, and automotive parts and components." Having positioned fiscal 2018 as a year for completing the 2016 Mid-Term Management Plan and a preparatory period for the next Mid-Term Management Plan, the Group implemented key measures, that is, "Producing results for measures implemented in the 2013 Plan," "Reinforcing the basic structure of existing businesses," and "Taking strategic steps for the future" in each business segment.

To be specific, we worked on the following measures: enhancement of production systems for MicroThin™; establishment of production systems for exhaust detoxifying catalysts for automobiles and ensuring those systems contribute to profit; reinforcement of the recycling business; support for establishing systems to enable stable operation and efficient production at the Caserones copper mine in Chile; and cost reduction of automotive parts and components to improve profit. The Group completed large-scale refurbishment of the Kamioka hydroelectric power generation service, which is expected to contribute to the Group's profits from fiscal 2019 onward.

#### Fiscal 2018 Results

As a result, net sales in fiscal 2018 decreased by ¥21,513 million compared with the previous fiscal year to ¥497,701 million. Operating income decreased by ¥31,307 million compared with the previous fiscal year to ¥18,222 million because of the recording of a loss on valuation of inventories in line with fluctuations of nonferrous metal prices and the foreign exchange market (hereinafter "inventory factors") in addition to lower sales volumes of the principal products of the Engineered Materials Business, among other factors.

Ordinary income increased by ¥6,515 million compared with the previous fiscal year to ¥17,755 million despite the recording of investment losses on equity method amounting to ¥2,194 million, primarily because

there is no longer an impact from the impairment loss for the Caserones copper mine, which was recorded for the previous fiscal year.

In extraordinary items, the Group recorded extraordinary losses, including a ¥1,706 million loss on disposal of property, plant and equipment. After accounting for income taxes and profit attributable to non-controlling interests, profit attributable to owners of parent in fiscal 2018 amounted to ¥4,691 million, an improvement of ¥5,399 million from the loss attributable to owners of parent recorded in the previous fiscal year.

	2018	2017	Change from the Previous Year	
	(Millions of Yen)	(Millions of Yen)	(Millions of Yen)	(Percentage)
Net sales	¥497,701	¥519,215	(¥21,513)	(4.1)%

## Operating Environment and Results by Each Group

### Engineered Materials Group

[Principal Products/Services (As of March 31, 2019)]

Battery materials (Hydrogen storage, etc.), Catalysts, Engineered powders (Metal powders for electronic materials, High-purity tantalum pentoxide, etc.), Copper foil (MicroThin™, Electro-deposited foil for printed wiring boards, etc.), Sputtering targets (ITO, etc.), Ceramics products

In the Engineered Materials Group, sales volumes of exhaust detoxifying catalysts for automobiles increased mainly because of the establishment of production systems and recipient of new orders. Sales volumes of metal powders for electronic materials and of MicroThin™ decreased because of sluggish demand for smartphone motherboards, among other factors.

As a result, sales of the Engineered Materials Group decreased 1.0 % year on year to ¥165,474 million. Ordinary income decreased 45.7% year on year to ¥16,608 million, owing mainly to lower sales volumes of the principal products.

### Metals Group

[Principal Products/Services (As of March 31, 2019)]

Zinc, Lead, Copper, Gold, Silver, Resource recycling

In the Metals Group, whereas demand for zinc for highly corrosion-resistant steel sheets in Japan was robust, demand for zinc for steel sheets was sluggish. Moreover, Zinc prices in Japan decreased in line with the downward trend of zinc prices on the London Metal Exchange.

As a result, sales of the Metal Group decreased 10.7% year on year to ¥166,640 million. An ordinary loss amounted to ¥6,039 million, a deterioration of ¥11,569 million from ordinary income recorded for the previous year, owing to the recording of a loss on evaluation of inventories in addition to a decrease in nonferrous metal prices.

### Automotive Parts & Components Group

[Principal Products/Services (As of March 31, 2019)]

Automobile Door Locks

In the Automotive Parts & Components Group, sales volume of side door latches, the mainstay products, increased in Japan and Southeast Asia. In contrast, in China, sales volume of side door latches decreased,

reflecting the abolition of a tax reduction measure for compact cars, among other factors.

As a result, sales of the Automotive Parts & Components Group increased 1.9% year on year to ¥104,026 million. Ordinary income decreased 15.0% year on year to ¥4,689 million, mainly owing to cost increases reflecting higher prices of steel materials, among other factors.

#### Affiliates Coordination Group

[Principal Products/Services (As of March 31, 2019)]

Engineering services for various industrial plants, Die-cast products, Powdered metallurgical products, Rolled copper products, Perlite products, etc.

In the Affiliates Coordination Group, sales volume mainly of die-cast products increased. However, demand for orders concerning industrial plant projects in Japan and overseas remained sluggish. In addition, revenue recognized based on the percentage of completion method for projects for hydroelectric power generation facilities decreased.

As a result, sales of the Affiliates Coordination Group decreased 4.4% year on year to ¥126,904 million. Ordinary income decreased 28.6% year on year to ¥4,881 million.

Net sales and ordinary income (loss) by each group are the following:

[Net Sales]

Group	2018	2017	2016	2015
	Net Sales (Millions of Yen)	Net Sales (Millions of Yen)	Net Sales (Millions of Yen)	Net Sales (Millions of Yen)

Notes: 1. Intersegment transactions are deducted by means of Adjustment Amount items.

2. Adjustment Amount in fiscal 2017 includes a ¥34,603 million impairment loss for the Caserones copper mine.

## (2) Capital Investment

The Mitsui Kinzoku Group invested a total of ¥36,119 million, mainly for the following purposes by each group:

Group	Capital Investment (Millions of Yen)	Contents and Purposes
Engineered Materials Group	¥14,395	Boosting production capacity for MicroThin™ and enhancement of production systems for exhaust detoxifying catalysts for automobiles, etc.
Metals Group	12,054	Large-scale renovation of hydroelectric power generation facilities, etc.
Automotive Parts & Components Group	5,013	Boosting productivity of facilities, conserving energy, etc.
Affiliates Coordination Group	2,841	Maintaining and renovating facilities, etc.
Other Group	1,814	
Total	¥36,119	

Note: Unrealized profit on intersegment transactions is deducted by means of Other Group item.

## (3) Funding

For the purpose of redeeming commercial paper, the Company issued its No. 18 issuance of unsecured domestic straight bonds amounting to ¥10.0 billion in November 2018.

## (4) Research & Development and Resource Development

### Research and Development

The Group is creating innovative products by utilizing its core technologies, such as electrochemistry, powder processing, and composite material processing. The Group is also promoting R&D while strengthening industry-academia collaboration. Specifically, the Group is mainly engaged in R&D of next-generation energy conversion materials and electronic device related materials, such as fuel-cell materials for vehicles, solid electrolytes for all-solid-state lithium-ion secondary batteries, next-generation fine circuit materials, and fine metal powders. Specifically, the Group is mainly engaged in R&D of next-generation energy conversion materials and electronic device related materials, such as fuel-cell materials for vehicles, solid electrolytes for all-solid-state lithium-ion secondary batteries, next-generation fine circuit materials, and fine metal powders.

### Resource Development

The Group explored mining possibilities mainly in the vicinity of Huanzala mine and Pallca mine in Peru. The Group also carried out an exploration and boring project in Canada jointly with other companies.

Notes: 1. Earnings (loss) per share is calculated based on the average number of issued and outstanding shares during the term.

2. Every ten shares of the Company's common stock were consolidated into one share on October 1, 2017. Accordingly, earnings (losses) per share, total net assets per share, and dividend per share are calculated, assuming that the said reverse share split was conducted at the beginning of the 91st fiscal year.

3. The Company applied "Partial Amendments to Accounting Standard for Tax Effect Accounting," etc. (Accounting Standards Board of Japan Statement No. 28, February 16, 2018) from the beginning of the fiscal 2018. Total assets, ROA (Return on assets) and Shareholder's equity ratio for fiscal 2017 are presented after retrospectively applying above accounting standard, etc.

## (6) Important Challenges Ahead

### Economic outlook

In fiscal 2019, despite the continuing recovery of the world economy, the pace of growth is expected to slow owing to the diminishing positive impact of the tax reductions in the U.S. and the stagnation of the Chinese economy, among other factors. Moreover, medium- to long-term risks are persisting, such as the protectionist trade policies of the U.S., Brexit, and the economic slowdown in China.

With regard to the Group's business environment, there still remain risks such as fluctuation in nonferrous metal prices, rise in energy costs and sharp increases in raw material prices.

### Review of the 2016 Mid-Term Management Plan

The Group implemented the 2016 Mid-Term Management Plan with the aim of reinforcing management bases for further growth in accordance with the Group's Vision in 2024—"The Company that continues to create growth products and businesses and enhance value based on the three core businesses: engineered materials, metals, and automotive parts and components." However, quantitative targets were unattained due to a decline in the facility utilization rate for processing of collected recycling materials, in addition to external factors that affected the Metals Business segment, such as deterioration in the ore purchase conditions and soaring prices of raw coke. Furthermore, impairment loss for the Caserones copper mine was recorded for the fourth time in fiscal 2017.

Despite the above results, the Group implemented key measures for "Producing results for measures implemented in the 2013 Plan" and "Reinforcing the basic structure of existing businesses," such as initiatives to deal with the expanding MicroThin™ market, completion of the full-scale ramp-up of production of exhaust detoxifying catalysts for automobiles, reinforcement of the nonferrous metal recycling business, and initiatives to increase competitiveness of overseas plants in the Automotive Parts & Components Business segment. In addition, as for "Taking strategic steps for the future," the Group invested in the hydroelectric power generation service in Kamioka and strengthened initiatives to create new businesses.

### Initiatives under the 2019 Mid-Term Management Plan

Based on the above recognition, in April 2019, the Group formulated the 2019 Mid-Term Management Plan, which covers three years from fiscal 2019. The Group's Vision for 2024 stated in the 2016 Plan remains unchanged and the Group aims to transform its foundation for growth in order to realize the Vision for 2024 by implementing measures, namely, "Build on accomplishments of 2016-2018 and 2013-2015," "Implement the 2019-2021 Plan's growth strategy," and "Spearhead reforms to prepare for the future."

In the Engineered Materials Business segment, the Group will continue to expand sales of MicroThin™ in 5G<sup>\*1</sup>-related markets, etc. as well as broaden the sales channels of exhaust detoxifying catalyst for automobiles, which was bolstered in the 2016 Plan. In addition, as part of the initiative for creating new businesses through the Market Co-creation approach, the Group will continue to focus on development of materials for all-solid-state batteries and development of next-generation materials for the formation of ultra-fine circuits (HRDP®), among others.

In the Metals Business segment, the Company will work to achieve the volume increase of recycling materials as well as stable operation. Regarding the hydroelectric power generation service in Kamioka, the Company will implement operation control so as to ensure profit contribution from fiscal 2019.

Regarding the Caserones copper mine, the Group will continue to provide support for further improvement of its operation.

In the Automotive Parts & Components Business segment, a substantial decline is expected at the start of the 2019 Plan, reflecting sharp deterioration in the Chinese automotive market. However, the Group seeks to realize further improvement of earnings by continuing to boost cost competitiveness and aims to win new orders from fiscal 2022 onward by strengthening development capabilities.

As "Strategic steps for the future" to facilitate transformation, the Group will continue to promote work style reform while at the same time implementing reform based on information and communication technology (ICT) in view of digital transformation<sup>\*2</sup>. Regarding ICT-based reform, the Group will focus on integration of the backbone system and strengthening of infrastructure and security in light of the emerging Society 5.0<sup>\*3</sup>.

Through steady implementation of the measures in each segment, the Group aims to achieve the following performance targets in the fiscal year ending March 31, 2022, the final year of the 2019 Plan: ordinary income of ¥37,000 million, the shareholders' equity ratio of 40%, and ROE of 10%.

Remaining true to the corporate slogan, "Material Intelligence," the Group will strive to continue to be a

source of new growth products and businesses by capitalizing on its unique technology and experience with a view to achieving “Sustainable growth of society” and “Enhancement of corporate value over the medium to long term.”

- Notes: 1. 5G: Short for 5th Generation. 5G is the fifth-generation communication system that will realize large-capacity high-speed communication. Full-scale launch of 5G in Japan is scheduled for 2020 or later.  
 2. Digital transformation: To reestablish management styles and business processes by fully leveraging digital technologies  
 3. Society 5.0: Advocated by the Japanese government in the 5th Science and Technology Basic Plan as a future society to which Japan should aspire. A human-centered society that balances economic advancement with the resolution of social problems by a system that highly integrates cyberspace and physical space.

(3) Matters Related to the Independent Auditing Firm

1. Name of the firm: KPMG AZSA LLC

2. Total compensation, etc., paid to the firm

Classification	Compensation based on audit and attestation services (Millions of Yen)	Compensation based on non-audit services (Millions of Yen)	Amount
The Company	¥113	¥1	¥115
The Company's subsidiaries	55	-	55
Amount	¥168	¥1	¥170

Notes: 1. Since the contract between the Company and the auditing firm does not distinguish between the audit required under Japan's Company Law and the audit required under the Financial Instruments and Exchange Law, the above figures also include the cost of the audit required under the Financial Instruments and Exchange Law.

2. The Board of Corporate Auditors of the Company reviewed the independent auditing firm's audit plan for fiscal 2017, the status of performance of duties in the previous fiscal year, the basis of calculation of the estimated amount of compensation, etc. by means of necessary documents obtained from the independent auditing firm and relevant internal departments as well as interviews. As a result, the Board of Corporate Auditors gave consent pursuant to Article 399, Paragraph 1 of the Company Law with regard to compensation, etc. for the independent auditing firm for fiscal 2017.

3. Among the Company's material subsidiaries, the following were legally audited by a certified public accountant or accounting firm, other than the Company's audit firm, with the corresponding qualifications in a foreign country: Taiwan Copper Foil Co., Ltd.; Mitsui Copper Foil (Malaysia) Sdn. Bhd.; Mitsui Electronic Materials Co., Ltd.; GECOM Corp.; Mitsui Siam Components Co., Ltd.; Mitsui Components Guangdong Limited; and Mitsui Kinzoku ACT (Shanghai) Management Co., Ltd.

3. Details of Non-audit Services

The Company entrusts the independent auditing firm with "the preparation of a comfort letter associated with the issuance of corporate bonds," which is a service outside the professional responsibilities provided under Article 2, Paragraph 1 of the Certified Public Accountants Act (non-audit service).

4. Policy regarding decisions related to dismissal and non-renewal of contract with the independent auditing firm

When the provisions of Article 340-1 of Company Law are deemed to be applicable to the auditing firm, the Board of Auditors may dismiss the firm with the consent of all the Corporate Auditors. The Board of Auditors determines the content of a proposal to be submitted to a General Meeting of Shareholders concerning non-renewal of the contract with the auditing firm at the Company's convenience. In addition, when it is deemed that the Company cannot continue the contract with the

auditing firm for reasons attributable to the auditing firm, the Board of Auditors determines the content of a proposal to be submitted to a General meeting of Shareholders concerning dismissal or non-reappointment of the auditing firm.

In either case, the Board of Auditors determines the content of a proposal to be submitted to a General Meeting of Shareholders concerning selection of a new independent auditing firm.

#### **(4) Systems for Ensuring Appropriate Business Operations and Overview of the Status of Operation of Such Systems**

The decisions as to the Company's systems for ensuring that the execution of duties by the Directors is in compliance with relevant laws and regulations and the Company's Articles of Incorporation and other systems for ensuring the proper conduct of the Group's activities and the status of operation of such systems are outlined below.

##### **1. Systems for ensuring that the execution of duties by the Directors and employees of the Company and its subsidiaries is in compliance with relevant laws and regulations and the Company's Articles of Incorporation**

- 1) To ensure that the conduct of business activities by the Directors and employees of the Company and its subsidiaries is in compliance with relevant laws and regulations and the Company's Articles of Incorporation, the Company clarifies and promotes its compliance system by instituting its "Code of Conduct," which Directors and employees are required to observe, and internal regulations.
- 2) The Company clearly defines the authority of the Directors through the issuance of internal regulations, including "Regulations for the Board of Directors (Torishimariyaku-kai kisoku)." Also, by appointing Outside Directors who have a high degree of independence, the Company increases transparency and creates a framework to ensure that the Directors execute their duties appropriately.
- 3) In addition, the Company conducts periodic internal audits of accounting, tax affairs, legal affairs, safety, quality, facilities, the environment, and hygiene to maintain their soundness, etc.

[Overview of the status of operation]

In order to thoroughly communicate the "Code of Conduct" worldwide, which specifies values and action guidelines that ought to be shared by everyone in the Group, it is translated into various languages, and training by using the Compliance Guidebook is continued at all bases, including overseas bases, to ensure adherence to the Code of Conduct. Each Executive Director reports important matters at the meetings of the Board of Directors, which includes two highly independent Outside Directors. Outside Directors have been appointed the chairperson of the Nomination Advisory Committee and of the Compensation Committee, respectively, thereby enhancing independence and objectiveness in these committees. The Internal Audit Committee directly reports to the Board of Directors, and has an Outside Director appointed as the chairman of the committee. The Internal Audit Committee determines the policy and annual plan for internal audits, and the Internal Audit Department conducts audits based on that policy and plan. The Internal Audit Committee evaluates the results of audits conducted by the Internal Audit Department after the end of each fiscal year and confirms the status of corrective measures in response to the findings

##### **2. Systems for storing and safekeeping of information related to the execution of the duties of the Directors**

For information related to the execution of the duties of the Directors, the Company has prepared, stores, and keeps in custody such information according to laws and regulations, the "Regulations for the Board of Directors (Torishimariyaku-kai kisoku)," "Information Management Rules (Jouhou kanri kisoku)," "Regulations Regarding Documentation (Bunsho kisoku)," and other internal regulations.

[Overview of the status of operation]

Information materials on agenda of meetings of the Board of Directors and their minutes are retained permanently, whereas the statutory retention period for such documents is 10 years. Documents of important meetings related to business execution are retained for 10 years or permanently depending upon the meeting bodies.

##### **3. Regulations and systems concerning the management of losses and hazards of the Company and its subsidiaries**

To prevent the materialization of risks related to the execution of business activities of the Company and its subsidiaries and to respond to risks that have already materialized, based on its "Risk

Management Regulations (Risk management kisoku),” the Company designates organizational units in charge of each type of risk to monitor and evaluate the risks that may arise in the business activities of the Company and subsidiaries, decides on policies for risk management, and implements measures to deal with risks when they materialize.

The Company establishes “Regulations for Emergency Responses (Kinkyu-jitai hasseiji no taiou ni kansuru kisoku)” to protect human lives and assets and to swiftly recover and continue business in the event of a large disaster.

[Overview of the status of operation]

In fiscal 2018, the Group made preparations for a major earthquake and conducted drills based on the risk surveys.

Moreover, the Group conducted training for incident management in the event of an emergency and improved various manuals.

#### **4. Systems to ensure that the Directors of the Company and its subsidiaries execute their duties efficiently**

As the basis for systems that ensure the Directors execute their duties efficiently, the Board of Directors holds a regular meeting once a month, and at other times as necessary. In addition, the Company determines assignment of responsibilities for management and clarifies the approving authorities including those of subsidiaries to enhance the efficiency of decision-making. Also, through the introduction of the Executive Officer system, the Company endeavors to accelerate the execution of business activities.

[Overview of the status of operation]

In fiscal 2018, ordinary meetings of the Board of Directors were held once every month and six extraordinary meetings of the Board of Directors were held in April, May, August, September and November 2018 and in February 2019. In accordance with the approving authorities that stipulate the assignment of responsibilities for management, the Board of Directors deliberated and made decision on necessary important matters.

Meetings were held between Outside Directors and the Accounting Auditor to exchange views. Also, monitoring of the status of business execution by Executive Officers was conducted.

#### **5. Systems for reporting to the Company of matters related to the execution of duties by Directors of the Company’s subsidiaries**

Directors, Corporate Auditors, and the responsible department shall receive reports on the status of execution of duties by Directors of the Company’s subsidiaries in accordance with the “Regulations for the Management of Subsidiaries and Affiliates (Kankei-gaisha kanri kisoku )” etc.

[Overview of the status of operation]

Directors of the Company’s subsidiaries report the status of execution of their duties in accordance with the “Regulations for the Management of Subsidiaries and Affiliates” at periodic meetings of business units.

Units of the head office report to Corporate Auditors, as necessary, about the information they obtained on the status of execution of duties by Directors of the Company’s subsidiaries.

#### **6. Matters concerning employees who are to assist the duties of Corporate Auditors when Corporate Auditors request assignment of such employees and matters related to ensuring the independence of such employees from Directors and effectiveness of instructions given by Corporate Auditors to such employees**

- 1) Under the Company’s “Regulations for Company Organization Systems (Kaisha shokusei kisoku),” the Company establishes an Auditor Office and assigns employees to assist the Corporate Auditors in the execution of their duties. In addition, the selection of these employees is made with reference to the opinions of the Corporate Auditors.
- 2) The employees who are assigned to assist the duties of Corporate Auditors shall assist Corporate Auditors in accordance with the “Regulations for Company Organization Systems.” At the meetings of the Board of Auditors, such employees shall receive instructions from Corporate Auditors, and also shall report on the progress of matters that they were instructed to address, and provide information.

[Overview of the status of operation]

Regarding employees who are to assist the duties of Corporate Auditors, staff of the Auditor Office are selected from head office organizations in reference to the opinions of the Corporate Auditors. Auditors Office Liaison Meetings are held monthly for which the Auditor Office serves as the secretariat and where the staff of the Auditor Office receive instructions from Corporate Auditors and provide Corporate Auditors with information on the progress of matters that they were instructed to address and other information.

**7. Systems for Directors and employees to report to the Corporate Auditors; systems for Directors, Corporate Auditors, and employees of the Company's subsidiaries and for persons who received reporting from such persons to report to the Corporate Auditors; and other systems regarding reporting to the Corporate Auditors**

- 1) When the Directors and employees of the Company and Directors, Corporate Auditors, and employees of the Company's subsidiaries discover facts that may cause serious losses to the Company, or when other events occur concerning the matters requiring reporting specified by the Board of Auditors, they shall report to Corporate Auditors.
- 2) Upon auditing of subsidiaries by the Corporate Auditors, Directors, Corporate Auditors, and employees of the Company's subsidiaries shall report the status of operations and other matters required by the Corporate Auditors.
- 3) Details of the reporting made via the whistleblowing system shall be periodically reported to the Corporate Auditors.

[Overview of the status of operation]

For full-time Corporate Auditors, in addition to their attendance at the meetings of the Board of Directors, opportunities are ensured for them to attend important meetings related to business execution. Through these meetings, matters are reported and information is provided to Corporate Auditors. Full-time Corporate Auditors and Outside Corporate Auditors also visit the Company's subsidiaries to conduct auditing whenever necessary, and receive reports on the status of operation as well as matters requested by the Corporate Auditors.

Details of the reporting made via the whistleblowing system are periodically reported to the Corporate Auditors and briefed at the meetings of the Board of Directors, after taking necessary measures in accordance with the Company's "Regulations for Operation of the Hotline (Hot line unei kisoku)" so that the person who made the report and the related worksites are not identified.

**8. Systems to ensure that persons who reported to the Corporate Auditors will not receive detrimental treatment because of the reporting**

The Company shall prohibit detrimental treatment of the Directors and employees of the Company and Directors, Corporate Auditors, and employees of the Company's subsidiaries who reported to the Corporate Auditors because of the reporting.

[Overview of the status of operation]

It is announced on the Company's website and stated in the Compliance Guidebook that persons who reported to the Corporate Auditors will not receive detrimental treatment because of the reporting. The policy that persons who reported to the Corporate Auditors will not receive detrimental treatment because of the reporting is also communicated in internal training and on other occasions.

**9. Matters concerning procedures for advance payment or reimbursement of fees arising in connection with the execution of duties by the Corporate Auditors and other policies regarding handling costs or obligations arising in connection with the execution of such duties**

When the Corporate Auditors request advance payment or reimbursement of expenses for their execution of duties, based on deliberation by the responsible department the Company shall make advance payment of or reimburse such expenses swiftly except in the case that such expenses or obligations are proved to be unnecessary for the execution of duties by such Corporate Auditors.

[Overview of the status of operation]

At the beginning of each fiscal year, the Company sets aside a budget for expenses to be incurred based on the action plan of the Corporate Auditors for the year. The Company has established a rule that allows the Corporate Auditors to request additional budget if expenditures exceeding the predetermined budget for expenses are necessary.

**10. Other systems to ensure that audits by the Corporate Auditors are performed effectively**

The Representative Directors and Corporate Auditors meet periodically to exchange opinions. The Corporate Auditors may attend important meetings to exchange information with Directors and employees thoroughly.

[Overview of the status of operation]

During fiscal 2018, meetings to exchange opinions were held twice between the Representative Directors and Corporate Auditors. Corporate Auditors held meetings nine times to exchange opinions with Executive Directors, Executive Officers and other management executives. Outside Directors and Corporate Auditors also held meetings and they also interviewed the Accounting Auditor as necessary.
