To Whom It May Concern,

## Metal Production Plan for the First Half of FY2023

The metal production plan for the first half of FY2023 of our company, Mitsui Kinzoku (President: NOU Takeshi) is as follows.

|                            | <b>First half, FY2023</b><br>(Plan) | First half FY2022<br>(Actual) | Second half, FY2022<br>(Forecast) |
|----------------------------|-------------------------------------|-------------------------------|-----------------------------------|
| 1. Zinc (in thousand tons) | <b>107.0</b>                        | 112.3                         | 107.4                             |
| 2. Lead (in thousand tons) | <b>34.2</b>                         | 35.2                          | 34.9                              |
| 3. Gold (in tons)          | <b>2.5</b>                          | 2.9                           | 2.8                               |
| 4. Silver (in tons)        | <b>58.8</b>                         | 67.0                          | 64.9                              |

(Comparison with figures for the same term in FY2022)

- The reason for the decrease in gold and silver production is due to the difference of raw material grade.

(Comparison with figures for the second half forecast in FY2022)

- The reason for the decrease in gold and silver production is due to the difference of raw material grade.
