

Philosophy of Mitsui Kinzoku Group

Throughout our history, which is approaching 150 years since our company was first founded, Mitsui Kinzoku has experienced many changes and faced many difficulties. The reason why we were able to overcome these obstacles and continue to this day is because we continuously supplied products that are helpful to the world by utilizing our “intelligence” that we have fostered over years as a manufacturer. The central pillar of the business is our corporate philosophy.

We have to enhance our own sustainability in order to fulfill our social responsibility. We advance our business to respond to the expectations of our stakeholders, while keeping our corporate philosophy at the center of our business activities to further strengthen our business base. We will contribute to the realization of a sustainable society through new value creation by enhancing our recognition of environmental and social issues, and driving our unique innovations.
